AMERILUBE EAGLE G4R

AMERILUBE EAGLE G4R racing engine oil is a super premium, high performance, synthetic fluid developed and designed specifically for today's high output, high performance racing engines. EAGLE G4R is the result of AMERICAN SYNTHOL's research, development, testing, and production of synthetic engine lubricants since 1983. This advanced fluid uses technology not found in any other engine lubricant produced in the world today. It has demonstrated its ability to reduce friction, decrease fuel consumption, provide maximum protection against wear, virtually eliminate foaming, and reduce lubricant temperatures. EAGLE G4R can be used in engines running gasoline and alcohol fuels. It gives outstanding performance in both oval track and drag strip vehicles.
